

A Spa in Las Conchas! New Beachfront Spa Opens at Tessoro

What better Holiday gift could the Las Conchas neighborhood receive? Over Thanksgiving weekend, the Nuevo Temazcal at Tessoro Spa opened at its beachfront location inside the grounds of the new Tessoro resort on the Las Conchas Peninsula.

For the condominium residences at Tessoro, the 600-plus homes in Las Conchas and all of the Las Conchas Resorts developments, a world of massages, treatments and pampering is now just minutes away. This marks an important step in the expansion of tourist services in this exclusive neighborhood that already boasts some of Puerto Peñasco's best eco-tourism and natural beaches.

The spa is set in a free-standing building a short walk from Tessoro's resort pool area and directly in front of the beach with gorgeous views. There is an outdoor spa tub overlooking the water and a private beachfront gazebo for sea-side massages. This set up and location make the spa unique in the Rocky Point.

The owner of Nuevo Temazcal is Mayra Luz Gracida Veldepenna, a respected local cosmetologist and entrepreneur who has opened two of Rocky Point's finest spas. She is the member of several international cosmetic and spa associations and studied at the prestigious UNAM (Universidad Nacional Autónoma de México).

Mayra describes the Nuevo Temazcal Spa as "designed to help visitors achieve a harmony of body, mind and spirit." She has designed the Spa

specifically to capitalize on the superlative location, offering indoor and outdoor environments and incorporating transcendental music, lighting, candles, and aromatherapy into the experience.

So what services can you expect at the new spa?

Massages are among the most requested of spa services and visitors will be able to choose among: Holistic, Relaxation, Chiropractic, Sports, Hot Stone and Reflexology massages.

Facials are another popular and rejuvenating option. The cleansing and nutrient process is complemented with facial, neck, and shoulder massage.

Manicures and Pedicures are practiced with state of the art tools, sterilized with UV rays and offered by skilled practitioners.

Fancy Treatments we can barely pronounce but sound great – regenerative treatments of pulsating light, ultrasound, firming electrostimulation, laser, radiofrequency and microdermabrasion.

Everyone likes to relax on vacation and healthy spa treatments are important offerings. In the words of Mayra, “we can improve organic function and stimulate blood flow, helping resolve edemas, varicose veins, and muscular aches. The attention received heightens the sense of self-esteem, stimulates oxygen flow in the body, sharpens the memory and senses, increases the process of cellular regeneration and improves overall well-being.”

You will find Mayra and her team at Tessoro on Friday and Saturday from 9am to 5pm and Sunday from 10am to 2pm. Appointments can be made in person at the spa or by telephone at 638 388 6288 or 638 383 4947. The Tessoro concierge can help with appointments as well – (602) 476-2396.

It is promising to see the expansion of high-end tourist services along the beaches east of the downtown. For Las Conchas residents and renters, it will be an important attraction. The Rocky Point Times welcomes another business to the community.
